OBJECTIVE

Motivated Computer Science student with a solid foundation in problem-solving skills and programming. Eager to contribute to innovative projects while further developing my technical abilities in a dynamic and collaborative environment.

EDUCATION

Bachelor of Computer Science, Prasad V Potluri Siddhartha Institute Of Technology Expected 2026
Relevant Coursework: Data Structures and Algorithms.

Intermediate Education, Narayana Junior College 2020 - 2022

SKILLS

Technical Skills	React, Node, MongoDB, C++
Soft Skills	Team Work, Time Management
Currently Learning	Machine Learning, AI

PROJECTS

- **EduConnect** - Developed a web platform that organizes and curates educational content tailored for college students by college, branch, year, subject, and topic. The platform streamlines access to relevant study materials, including videos and notes, reducing search time and enhancing exam preparation efficiency.
- **Portfolio** - A **portfolio website** is a personal or professional website that showcases my work, skills, projects, and achievements. It acts as an online resume, allowing potential employers, clients, or collaborators to learn more about me.
- **Identifying Shopping Trends Analysis** - Developed a data-driven project to analyze shopping trends using machine learning and data visualization techniques. The project extracts insights from customer purchasing behavior, seasonal trends, and product popularity to help businesses make informed decisions.

INTERESTS

- **Competitive Coding**: Participate in coding challenges on various platforms.
- **Continuous Learning**: Proactively learn new courses to broaden technical knowledge.

CERTIFICATIONS

- Enhancing Soft Skills and Personality by NPTEL Swayam
- Data Structures and Algorithms in Java by Infosys Springboard
- Java Collections Framework (JCF) with Projects by Infosys Springboard
- Programming in Java by NPTEL Swayam

STRENGTHS

- **Problem Solving Prowess**: With my analytical skills, I excel at identifying problems and devising effective technological solutions. I thrive on challenges and use my knowledge and creativity to overcome them.
- **Team Player**: I possess a strong ability to collaborate and work well within a team. I understand the importance of communication, compromise, and synergy in achieving shared goals. My cooperative nature and interpersonal skills make me a valuable team member.

EXTRACURRICULAR ACTIVITIES

- National Digital Library Club Membership
- Participation in Technical Quiz
- Participation in several events in Unstop
